### DETAILED ACTION

1. Applicant's arguments with respect to claims 9 and 16 have been considered but are moot in view of the new ground(s) of rejection.

#### ***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claim 9,11-13,15,30,32, 33,35 are rejected under 35 U.S.C. 103(a) as being unpatentable over Chien (5,451,842) and further in view of Daniel, Jr. (4,452,836)

Chien discloses the claimed invention except for the recitation of a hollow enclosure. Chien discloses a wiring assembly (4) including a length of wire having a first and a second end the first end connected to a male insert configured for insertion into one of the pre existing sockets of a power line of a conventional light string (2) the second end connected to a lighting assembly (5-7). Daniel discloses a hollow enclosure including a decorative element contained therein and a neck (16) having an opening sized to receive the lighting assembly in a position to illuminate the decorative element and a collar (12,18) having a hole which a wire is inserted the collar slidably positioned between the first end and the second end of the wire the collar having an interior surface adapted to receive the neck; the collar having an interior surface adapted to receive the neck and an exterior surface including decorative ribbing or knurls, the collar is adapted to threadably receive the neck (Abstract, figs 1 and 4). It would have been

Art Unit: 2875

obvious to one of ordinary skill in the art at the time the invention was made to combine the teaching of Daniel's decorative hollow enclosure to modify Chien's wiring assembly to provide Chien with a facilitate removal of the decorative device when not in use or to facilitate replacement of one decorative hollow enclosure with another, the collar comprises an arcuate metal hanger (13); with regards to the lighting assembly comprising a plurality of LEDs, The examiner takes Official Notice that the use of LEDs is old and well known in the illumination art. It would have been obvious to one of ordinary skill in the art at the time the invention was made to substitute an LED for the light source in the system of Chien. One would have been motivated since LEDs are recognized in the illumination art to have many desirable advantages, including reduced size, high efficiency, low power consumption, long life, resistance to vibrations, and low heat production, over other light sources (see Huang for teaching)

***Allowable Subject Matter***

4. Claims 1-8, 16-29, 36-38 are allowed.
5. Claims 10, 14, 31, 34 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
6. The following is a statement of reasons for the indication of allowable subject matter: The reasons can be found in the office action previous to this one.

***Conclusion***

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
